## Introduction

Thank you for purchasing the Tibo Legacy series. We are confident that it will provide reliable, high performance sound for many years to come. Please read this manual fully before you attempt any connection to the Legacy series. Please do not compromise on your amplifier and audio cabling. We recommend you purchase excellent quality speaker cable to ensure your system reaches it's full potential.

If you decide to upgrade your amplifier, why not check out Tibo's range of Smart Amplifiers and experience great new features.

Bluetooth

TuneIn

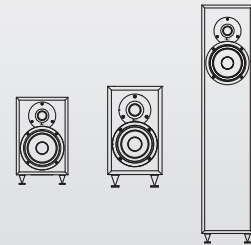

Deezer

Spotify

## In the box...

Speaker pair x 1

Speaker grill pair x 1

Spikes x 8

Spike cups x 8

User guide x 1

## Attaching the spikes

Make sure you have plenty of unobstructed working space. Place soft clean cloth on the floor to protect the loudspeaker, invert the loudspeaker onto the cloth.

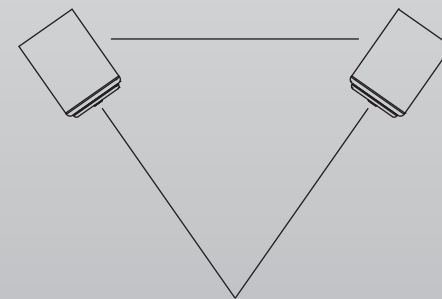

Thread the spikes into the spike inserts. Tighten them finger tight.(show image of attaching spikes) Invert the loudspeaker, be careful not to damage the floor with the spikes.

Cups are provided for use on wooden or stone floors etc. And should be attached.

## Positioning loudspeakers

The listener should be as far from the loudspeaker as they are from each other. The speaker should ideally be positioned so the treble units (tweeter) are roughly at ear level to the seated listener.

As personal taste plays a large role, experiment with different configurations using a wide range of music, before finalising the position of your loudspeakers.

Available in oak and black

## After care

Clean with dry lint free cloth, do not use spirit based cleaners.

Avoid damp

Avoid temperature extremes

Avoid direct sunlight
