Harmony Series Speakers Quick Start Guide

Introduction

Thank you for purchasing the TIBO Harmony Series. We are confident that it will provide reliable, high performance sound for many years to come. Please read this manual fully before you attempt any connection to Harmony series. Please do not compromise on your amplifier and audio cabling. We recommend you purchase excellent quality speaker cable to ensure your system reaches its full potential.

Harmony 2 / 4 / 8

- Speaker x 2
- Speaker grill x 2

Harmony 5 Pack

- Front speaker x 2
- Centre speaker x 1
- Rear speaker x 2

User manual x 1

Wiring the speakers

All Harmony speakers use screw terminals. Unscrew the terminal insert the bare end of the cable into the hole in the base of the terminal, tighten securely. Ensure positive + and negative - are matched with the amplifier / receiver.

Positioning loudspeakers

The listener should be as far from the loudspeaker as they are from each other. The speaker should ideally be positioned so the treble units (tweeter) are roughly at ear level to the seated listener.

As personal taste plays a large role, experiment with different configurations using a wide range of music, before finalising the position of your loudspeakers.

Harmony 2/4/8

Available in black and white

After care

Clean with lint dry lint free cloth,
do not use spirit based cleaners.

Avoid damp

Avoid temperature extremes

Avoid direct sunlight
